

Digital conferences – made simple.

Weframe One offers you a digital solution for productive and intuitive collaboration. Designed specifically for group work, Weframe One comes to the meeting room with 86" session boards. The digital solution is easy to use and enables synchronous collaboration from multiple locations.

Designed for collaboration.

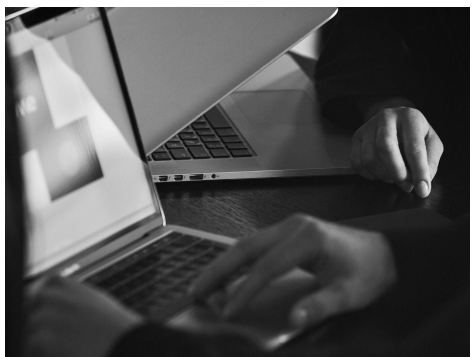

Share the screen or simply write and draw on the board with the Weframe Pen.

Everyone works together- simply connect via laptop, tablet or smartphone.

One interface for all: create and discuss content easily with everyone.

Prepare and edit meetings at any time and from anywhere.

The better kind of meeting.

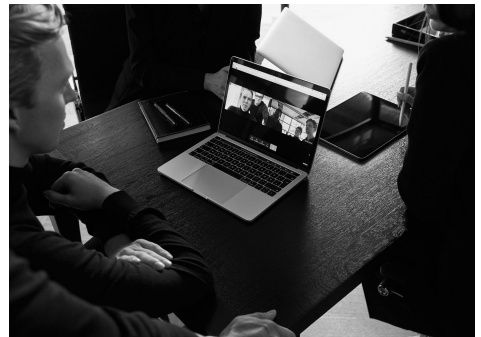

Weframe One enables digital flexibility and hybrid meetings.

Whether in one room or in multiple rooms, everything is possible with Weframe One. Integrated video-conferencing enables joint working from different locations .

So all participants can be there live.

Participants without a Sessionboard can also simply connect to the session via laptop and thus take part in the meeting.

The digital desktop is visible for all participants and can be used synchronously on all connected sessionboards. For hybrid meetings in presence quality.

Advantages for facilitators:

- prepare conveniently from anywhere on the laptop
- results are immediately and digitally available
- manage meetings anytime and anywhere
- without prior installation or licences

Advantages for participants:

- quickly contribute ideas, questions and content as images, text or video
- real participants interaction
- participate and contribute via video call from anywhere
- conferences that are fun

You can now use Weframe One in our meeting rooms.
